Chevrolet Rushes to Supply Those Who Wait Cars

Every consideration will be given to the thousands of customers who have shown their loyalty to Chevrolet by leaving their orders with dealers in spite of uncertain delivery, according to W. E. Holler, vice president and general sales manager of Chevrolet.

In a communication to Chevrolet's 10,000 dealers, Holler requested them to extend his thanks to the thousands of purchasers who were willing to await resumption of production for delivery of their cars. He also assured dealers that new orders for Chevrolets will receive immediate attention and that deliveries will be made with the utmost rapidity.

"It is a source of deep gratification to me and to everyone in Chevrolet to notice the fine spirit of co-operation exhibited by the public," Holler declared. "We have received hundreds of letters here in Detroit from customers assuring us their willingness to take delivery as soon as we could obtain the materials which would permit us to resume production."

Return to Peak "Production now has been resumed, and shipments of new cars will shortly be under way. We expect to be producing at capacity within a few days in order to reward the loyalty and patience of the public with deliveries of new cars with all the speed of which we are capable."

Holler pointed out that in November and December Chevrolet enjoyed two of the most successful months in its history, producing and delivering more than 200,000 of the new 1937 models. New sales records have been consistently set up ever since the announcement of the new models last November, the sales chief recalled.

"We will bend every effort toward returning to a high peak of business as quickly as possible," Holler declared. "In the meantime, the many thousands of orders from Chevrolet customers, which we have not been able to fill during the recent stoppage of production, will be filled as soon as normality can be restored to the assembly lines."

FORD SALES EXECUTIVES CONFER

J. R. "Jack" Davis, (center), assistant general sales manager of the Ford Motor Company, reports the "hysteria of speed" in an address to the members of low horsepower Ford being sold this year. In the foreground (left), Ford Motor Company Long Beach branch manager, and John S. Moffat (right), his assistant, are pictured as they discussed sales plans with Davis in Los Angeles last week.

The "hysteria of speed" which has afflicted both the motoring public and the motor car manufacturers is apparently passing," according to J. R. Davis, shown above with Los Angeles Ford executives, who continued:

"I make that statement based on the sales success already accorded the new Ford V-8 '60' model. Automobile dealers and other experts declared that it would not be well received by the public because it did not offer the excessive speed and exceptional power to be found in the Ford V-8 '85'. However, the sales records to date belie their prophecies.

"Thirty-five percent of our output since the introduction of the two models has been of the lower priced Ford 60 horsepower model. We account for this by reason of the more sensible buying habits of the 1937 motor car shopper. In the Ford '60' they get a top speed of 70 miles an hour—enough for any reasonable demands—exceptional gasoline economy and all the safety features which Ford has pioneered in the low priced field."

Davis revealed some interesting sales statistics which prove the really outstanding sales and manufacturing job being done by the Ford Motor Company. For instance, the Ford world production for last year was upward of 1,225,000. A lot of cars! In December Ford produced 107,000 units, an increase of about 25 percent over production for the same month a year ago. Today Ford plants are producing 6,400 a day—and still are not able to keep pace with the demand.

Organization of all lawyers in Inglewood township, which includes Torrance, into a bar association with a membership of some 30 eligible attorneys was proposed last week by Judge Frank Carrell, justice of the peace and president of the Inglewood Bar association, and a group of representative attorneys in the Gardena Justice court.

Each attorney indicated that he favored the plan, the bar association would be given greater recognition and able to accomplish worthwhile objectives. Another meeting to further consider the plan will be held in the near future Judge Carrell announced.

In the meantime the South Bay Bar association made up of lawyers in the beach district, will consider the consolidation of their organization with the Inglewood Bar association that would then represent the entire township, including Inglewood, Hawthorne, Torrance, Lomita, Gardena, Redondo, Manhattan, and Hermosa Beaches.

The Inglewood Bar association is a long established organization made up of attorneys in its district. Although not affiliated directly with the California Bar Association, to be eligible for membership in the Inglewood association, an attorney must be a member of the state organization and actively engaged in law. When he was elected to the presidency this year, Judge Carrell succeeded Lester O. Luce, Gardena's city attorney.

DOMINGUEZ ESTATE COMPANY, a corporation, Plaintiff, vs. DOMINGUEZ WATER COMPANY, a corporation, et al, Defendants.

NOTICE OF COMMISSIONER'S SALE OF FORECLOSURE No. 407414

By the judgment and decree of the above entitled court in the above entitled action, entered and recorded on the 1st day of February, 1937, in judgment book 952 at page 346, et seq., wherein the above named plaintiff obtained judgment and decree of foreclosure and sale for the sum of five hundred three thousand six hundred seventy and no/100 Dollars plus interest and costs, to which judgment and decree reference is hereby made, and by order of clerk issued to me by the clerk of the said court pursuant thereto, I am commanded to sell at public auction all of the following described premises:

(1) The right to enter into and upon, and to develop water on and to lead and conduct away said water from, the following described tract of land, to-wit: (a) Situate in the county of Los Angeles, State of California, and being a part of the Rancho San Pedro, and particularly described as that certain tract of land therein bounded on the north by the north line of the 216.46 acre tract allotted to Victoria D. de Carson as shown upon a map filed in action No. 3284 of the files of the Superior Court in and for the county of Los Angeles, State of California, to which map reference is hereby made, bounded on the east by the east boundary line of the Rancho San Pedro; on the south by the north boundary line of that certain tract of land conveyed by Maria Dolores D. de Watson to William H. Hoge, by deed dated about October 20, 1926; and on the west by the right of way of the Southern Pacific Railroad Company;

(b) TOGETHER with all water now in, or under said lands, or any part thereof, including surface, artesian and subterranean waters that may be found upon said lands, also including such waters as they may be or become by reason of their being riparian to the San Gabriel River; and

(c) TOGETHER with the sole and exclusive right to enter upon said lands and develop water thereon by boring or sinking wells, shafts, tunnels or other means; EXCEPT that subject to the paramount right therein reserved to the grantors respectively for the lands now owned by them and each of them in the above described tract of land the right for themselves, or their grantees, successors or assigns, to develop water upon said respective tracts of land for use upon the lands whereon the same are developed, for domestic, stock or irrigation purposes; provided that said development or use does not interfere with, diminish or injure the paramount right herein granted.

(d) TOGETHER with the right to conduct away said waters by pipelines, ditches, or canals, or other means of transportation;

(e) TOGETHER with the right to construct and maintain thereon pumping plants in such numbers and at such places as the party of the second part may from time to time elect.

(f) TOGETHER with the right of way over said land and every part thereof as may be necessary in the conduct of the system of the grantee for the laying of pipes, construction of ditches, canals, and the right to maintain and operate said pipelines and ditches and keep the same in order and repair;

(g) TOGETHER with the right of way for pole lines for the transmission of electric light and power used in the operation of said pumping plants.
